## Qualifications

Master of Landscape Architecture (Melbourne University) – current

Bachelor of Arts, Geography and Visual Arts (Australian National University)

## Expertise

Juliet is a heritage professional with experience in historical research, GIS mapping and design. With an academic background in landscape architecture, she is passionate about deepening her understanding of landscape history and cultural heritage management. Juliet is currently completing a Master of Landscape Architecture at Melbourne University, concentrating her coursework on cultural landscapes and landscape heritage.

## Experience

At Context, Juliet undertakes historical research and mapping contributing to heritage studies at all stages, whilst providing necessary project support.

Juliet has also worked on the Significant Tree Register and other environmental heritage projects through volunteering with the National Trust Advocacy Team.

## Project examples

**Brighton General Cemetery Conservation Management Plan – Historical research and mapping**  
Southern Metropolitan Cemeteries Trust, 2020

**Hoddle Grid Heritage Review Stage 3 – Project support**  
City of Melbourne, 2020
